

CHANGES COMING TO THE W6TRW AMATEUR RADIO SWAP MEET

The W6TRW Amateur Radio Club was recently notified that Northrop Grumman may be making major changes to the parking lots that we use for the monthly Swap Meet. If these changes take place, we will no longer be able to hold the Swap Meet at its current location.

Because of the unknown future, at this time, we are not reserving vendor spaces for the Swap Meet at Northrop Grumman beyond August 2015.

*Until then, we plan to continue to hold Swap Meets **as usual** on the last Saturday of every month.*

The W6TRW Amateur Radio Club Swap Meet started in the 1970's and has been the largest monthly ongoing Amateur Radio event in Southern California for almost 40 years. We are working on contingency plans to continue the monthly Swap Meets without interruption including working to secure a new venue in the South Bay area if we must move.

We will keep everyone updated on what is happening through our website and social media. If you'd like to be kept up to date please fill out a contact form at the W6TRW Information Booth and we will add you to our database.

Thank you for understanding that this major change is not something we want to do but we are working hard to continue the W6TRW Swap Meet for the benefit of the Amateur Radio community.
