Summits on the Air SOTA

Jeff Reed
April 10th 2018

What is Summits on the Air?

- SOTA is an award scheme for radio amateurs that encourages portable operation in mountainous areas.
- SOTA has been carefully designed to make participation possible for all Radio Amateurs and Shortwave Listeners - this is not just for mountaineers!
- There are awards for activators (those who ascend to the summits) and chasers (who either operate from home, a local hilltop or are even Activators on other summits).
- SOTA is fully operational in nearly a hundred countries across the world. Each country has its own Association which defines the recognized SOTA summits within that Association. Each summit earns the activators and chasers a score which is related to the height of the summit. Certificates are available for various scores, leading to the prestigious "Mountain Goat" and "Shack Sloth" trophies. An Honor Roll for Activators and Chasers is maintained at the SOTA online database.
