

Visit W6TRW Field Day 2024, Sat-Sun 22-23 June !!

The W6TRW Amateur Radio Club will set up their antennas and emergency communications equipment in Friendship Park in Rancho Palos Verdes / San Pedro, Saturday 8 AM June 22 through 4 PM Sunday June 23, 2024.

Please stop by and visit, to see ham radio in action, and meet your fellow W6TRW members! We'll have the operating station, info desk and snacks table all grouped together for easy access, social networking, questions and answers. In addition, we'll have the "Get On The Air" station, for a quick, assisted 30-second on-the-air contact opportunity for new hams and non-hams. **Fun for all!**

We need people to help with setup starting at 8 AM Saturday – you'll learn a lot about radios, antennas, batteries and solar power, and you'll get to meet the radio operators. Stick around for lunch and make a few radio contacts!
